ATTENTION CHEMICAL RIGHT-T-KNOW PROGRAM: HPV CHALLENGE

The Dow Chemical Company is amending its January 4, 2002 letter to confirm commitment for CAS Number 79-46-9, 2-Nitropropane, will now be met through the HPV Challenge Program. We are notifying ICCA that Dow no longer is sponsoring this chemical to the ICCA Initiative.

We recognize that sponsorship entails: assembling and reviewing available test data, developing and providing test plans for the sponsored chemical, and, where needed, conducting additional testing in the time frame established by the Challenge Program. The information and data we provide under the HPV Challenge Program will be made publicly available. Dr. William Stott is our technical contact and can be reached at 989-636-8203, wstott@dow.com.

Sincerely,

Linda C. Burgert
